Hi Johnsie,

I haven't heard back from Mike Narotsky as yet and I've attached my suggested revisions. The title reads a bit better (we weren't looking at the toxicity of the mouse :), and "sub-chronic" begins (according to D'Anglada) at 14 days exposure. I'll get Mike's comments back to you as soon as I receive them. He's been under a great deal of unspecified work pressure (as in – "I'm really feeling like retiring right now) so I'm not nagging – but I will check on him later today – he doesn't do anything unless he does it thoroughly. The saga of the NFBP2 paper and Ron continues – there always seems to be an additional problem so hopefully he's run out of them by now. I'm also forwarding an email on the subject from Drew.

Hi Neil,

I need a review of the attached abstract so it can be submitted to STICS. Feel free to contact me with any questions.

Thanks,

Hey Johnsie,

I got the STICS entry started. Here's what I need from you:

- 1- An Impact Statement
- 2- Four keywords
- 3- One Technical Manuscript Review
- 4- A completed Fact Sheet

I've attached templates/examples for the forms needed. Just send everything to me and I'll attach and send the entry through.

Thanks!
Drew

Subject: PFESA-BP2 Abstract

Hi Drew,

I am getting ready to submit an abstract for a conference that covers the PFESA-BP2 work. Please see the attached file for the abstract. Are you the correct person to submit this into STICS? Feel free to contact me if you need additional information. Here is a link to the conference website:

<https://www.battelle.org/newsroom/conferences/chlorinated-conference>
